

**Title: Shut Up And Dance ©2002SonnetPublishing**  
**Songwriters: Aaron Watson, Neal Lowry**

We both work hard for money already spent  
Blaming each other for where it all went  
Never thinking of love only paying the loans  
Griping bout' bills and keeping up with the Jones

Just once let's forget about making ends meet  
Or whose got the nicest yard on the street  
Darlin' let loose, let your hair down  
We're staying at home for a night on the town

**Chorus:**

**So turn the music up, and dim the lights down**  
**Let those old records keep spinning around**  
**Replace all our worries with some romance**  
**Tell me you love me then we'll shut up and dance**

When you're in my arms it makes me feel  
Like I own a mansion on top of the hill  
But it's not how big's the house it's how happy's the home  
How poor is a rich man who lives all alone

**Chorus:**

**So turn the music up, and dim the lights down**  
**Let those old records keep spinning around**  
**Replace all our worries with some romance**  
**Tell me you love me then we'll shut up and dance**

Solo

**Chorus:**

**So turn the music up, and dim the lights down**  
**Let those old records keep spinning around**  
**Replace all our worries with some romance**  
**Tell me you love me then we'll shut up and dance**
